

One-piece flow cleaning  
Revolution

# MecanoFAST

**CLEAN & DRY**  
in **30** SECONDS

## FAST

- Cycle time : 30 seconds to clean and dry
- Single part cleaning, no buffer required
- Quick tooling change over (from one parts reference to another)

## COMPACT

- Only 2 m<sup>2</sup> / 22 ft<sup>2</sup>
- 700 mm / 28" wide, easy to integrate in a manufacturing cell
- Loading / unloading at one position

## EFFICIENT

- Reduce operating costs by 50% to enhance customer's competitiveness
- Possibility to improve loading / unloading time by a rotary table
- Robot friendly
